Sale & Repurchase Agreements (REPO)
Classroom: Duration: 1 Day, Price £745
Virtual Learning: Duration 6 Hours, Price £580

Introduction

Knowledge of repurchase agreements is fundamental to understanding financial markets. This course delivers a comprehensive and practical introduction to the repo markets, from the basics of repo's to some trading strategies. It is focused throughout on current market practice with many actual and recent examples in the material and exercises.

Agenda

- Explain the purpose of 'repo', and its advantages and drawbacks.
- Describe the differences and similarities of classic repos and sell/buy-backs in terms of their legal, economic and operational characteristics.
- Define initial margin and margin maintenance.
- List and outline the main types of custody arrangements in repo.
- Calculate the value of each type of instrument using quoted prices, including the secondary market value of transferable instruments.
- Calculate the present and future cash flows of a repo given the value of the collateral and an agreed initial margin.
- Define general collateral (GC) and specials.
- Describe what happens in a repo when income is paid on collateral during the term of the repo, in an event of default and in the event of a failure by one party to deliver collateral.

Trainer Profile: Wayne Andrews
